Distance from well site to nearest property line of adjoining landowner: \_\_\_\_\_ feet. Distance from well site to nearest septic tank absorption field; out-door privy or other potential contamination source \_\_\_\_\_ feet.

Information and Instructions  
For  
New Well Application

**NOTE!** This application is valid for one and only one attempt to complete a well. Should this well hole be abandoned and/or plugged for any reason and should the applicant wish to make an additional attempt to complete a well, it will be necessary to file another application and fee with the District prior to drilling. Depending upon the location selected, it may be necessary for District Staff to conduct another onsite inspection.

**This form must be filed with the District at least five (5) business days before the drilling, equipping, or completing of any well, or the substantial alteration of the size of any well or well pump within the District.**

District staff will review the application, conduct an onsite inspection of the proposed site and make preliminary determination as to whether the well meets the exclusions / exceptions provided in District Rule 5. If the preliminary determination is that the well is excluded / exempt, the registrant may begin drilling or modification immediately upon receiving the approval. If the preliminary determination of the District is that the well is not excluded / exempt, then the registrant must file an application for an Operating Permit from the District before the well may be drilled, altered, or modified.

**Fee & Deposit.** This form must be returned to the District with a non refundable filing fee of \$50.00 and a deposit of \$50.00 (check, cashiers check or money order) The Deposit will be returned to the well payee if; (1) This application is denied, (2) the application is granted and upon receipt by the District of the correctly completed drillers log of the well within six (6) months after the date of this application, or (3) the proposed well location is abandon, without being drilled or results in a dry hole upon return and surrender to the District of this application marked "Abandon" by the Applicant within six (6) months after the date of this application. If neither the driller's log of the well or this application marked "Abandoned" is returned to the District within six (6) months after the date of this application, the deposit becomes the property of the District.

---

**I hereby certify that I am the Applicant or agent for the Applicant for the above-described well, that I have read the foregoing statements, , and that to the best of my knowledge and belief, all data therein contained are true and correct and complies with all District Rules. I further certify that, if approved and if this is to be a new well it will be drilled within ten (10) yards of the location specified in this application; that the well will be used for the purpose as listed on the application; and that I or my agent will furnish to the District a copy of the completed well log immediately upon completion of the well and before the production of water from the well. I further certify that I have read and understand the information and instructions for completing the application listed on this application and by signing the application I understand and agree to the conditions listed herein. I understand that failure to abide by the conditions listed herein or providing false information on the application is a violation of District Rules and will lead to the District taking action against me.**
